Supporting De Culture

Rhode Island's Providence Sound Session '09 Festival got on the way Sunday, July 5, 2009 and will continue through Saturday, July 11, 2009.

In addition to the music as they describe it "A multi-stage, genre-defying event", food and wonderful folks there is also a Carnival Parade, whose theme is "**INDIGENOUS**". And that is where we the Boston Carnival Village folks can do our part in supporting and promoting Boston Carnival to a wider audience, especially the bandleaders. This is a great opportunity to expand your membership and gain access to a whole new audience outside of your current community. In addition, they are doing many positive things which we could adopt here in Boston. Examples are: City involvement, tourist board and the businesses community. Most of all their ability to work together for the good of the whole.

So I urge you all, especially the **bandleaders** to join with me on Saturday to show a strong presence by supporting Providence Sound Session '09 Festival. I mean Boston Carnival Village and Tempo International. We have a spot in the parade and are asking the band leaders to send a couple representatives on Saturday to be part of our presentation "**Elements of Trinidad Carnival**" – And think about the potential positive boost and support we could gain from this effort. Got any question? Call Michael 617-512-7803 your culture warrior. To those bandleaders who have not yet replied, I await your response and those that have done so thanks for your support; you folks are true culture warriors.
